## PENNYBRIDGE PIONEERS TEN YEAR ANNIVERSARY TOUR!

Millencolin released their big breakthrough album Pennybridge Pioneers ten years ago this year. The album was recorded in Hollywood and produced by Brett Gurewitz, Epitaph Records owner and guitar player of Bad Religion. The title Pennybridge is referring to the bands hometown Örebro, Sweden. Pennybridge is a direct translation of the towns name into English.

Pennybridge Pioneers is Millencolin's fourth album. It quickly sold gold record status in Australia and is until this day, the bands best selling album world wide.

The idea for the 10 year anniversary tour came up after Millencolin played a special show at the closing night of a local venue in 2009. It was a packed sold out show with fans traveling from as far as Brazil to Sweden just for that show. The band later got feedback from fans all around the world requesting that show to be taken on tour. Since it's now ten years since the release and the band is in between records, they thought this would be a good time to make this happen. The album will be played from first to last song and after that a bunch of classic songs from the three first albums will be performed.

The tour starts on the 9th of september in Quebec City, Canada and will carry on through South America in november followed by Central America in december. The tour will continue in other territories spring 2011.

- "This tour is going to be so much fun! It was such a long time since we played some of the songs, it's almost going to feel like new stuff to us. We got so much positive response from that local show we did, that it feels like we owe it to our fans to take this album on tour again.", says guitar player Erik Ohlsson, who together with Millencolin finished the world tour of the latest album Machine 15 (2008) last year..
